Gompers is Indignant.

Washington, April 23.—President Gompers, of the American Federation of Labor, to-day declared that the arrest of International Secretary John J. McNamara, of the Bridge and Structural Iron Workers of America, at Indianapolis last night, was a grossly outrageous kidnapping, and attributed the arrest to enemies of organized labor and a plot of money interests to destroy labor unions. He suggested that the States, in the exercise of their police powers, are as foreign to each other as are foreign countries, and that no country would think of giving two a citizen on the mere demand of another country without hearing.

"How long are the American people going to stand for kidnapping" asked Mr. Gompers, "Mexamara was spirited away without giving tim the slightest change to give prima facte evidence of his intocence, taken from his own home and State without aid of friends or atterneys. The stage was all set the projectics arranged carefully, and then up went the curtain with a blare of trumpets upon the first act of a tracety contemplating the assassination of organized labor.

"It might just as well be McNamaria as another. The whole affair smacks of well-aid preservancement. The interests of corporate wealth are entways trying to crush the organized labor anovement, and they used the best confidence of the working people."

Mr. Gompers tated he had utmost ronfidence of their innocence. Electrical Shoe Shine 5c
